Our VISION

#CryptoAgainstTyranny

#CryptoAgainstTyranny

A response from the crypto community to the ridiculous war against Ukraine.

\$RCP was born as an answer to the current geopolitical conflicts created by Vladimir Putin. Investors of this token will be able to punch back at Putin and tyranny through satire while making a profit and simultaneously helping men, women, and children suffering beneath Putin's boot!

Part of the taxes received by purchasing \$RCP will be donated to Ukraine directly and the UNHCR, which is the UN Refugee Agency that is working tirelessly to help those countries that have been devastated by war.

Payback Time

Buy back and Burn Function

Core Concept

\$RCP is a hyper deflationary BSC token that employs the "Payback Time" function

Automatization

With the "Payback Time" function, the contract automatically buys and burns tokens.
